July 3, 1923

Dear Professor Miller,

I was much grieved to hear of Morley's death. Professor L. D. Little brought the first of his letters, which brought this sad news. I had known him for many, many years, and his being in rather poor health, but I had no idea the matter was at all serious. I am especially sorry that I have not had an opportunity of seeing him for several years.

Sincerely yours,

[Signature]
