The CWRU Department of Physics invites you to an

EVENING SOCIAL

Thursday, October 23, 2014 from 8:00 – 9:00 PM at
The Coffee House at University Circle,
in the first floor veranda
The Coffee House normally closes at 8 PM but is staying open late just for us.

This event is part of the University’s
CHOICES 2014, EXPLORING ACADEMIC & EXPERIENTIAL OPPORTUNITIES.
The purpose is to help first year students learn more about physics as a major & a career.

You are invited to join a group of physics faculty and physics majors to socialize and discuss our courses, degree programs, job opportunities, and anything else you wish.

Faculty members from a variety of research areas will be present, along with physics majors in several different physics degree programs. (see below).

There’s a free drink and pastry (of your choice) for everyone.

RSVP: Please contact Prof. Chottiner ( gary.chottiner@case.edu ) if you might attend; this will help us arrange enough food for all. You do not need to make a firm commitment that you will show up - and don’t be shy about coming even if you did not RSVP. We’ll set some extra places for you.

______________________________________________________________

Degree Programs in the CWRU Department of Physics

BS in Physics
BS in Physics w. concentration in Math
BS in Physics w. concentration in Biophysics
BS in Mathematics & Physics

BSE with a major in Engineering Physics & a concentration in a specific engineering discipline
BA in Physics
Minor in physics
Teaching Licensure (K-12 teaching credential)

More information about these programs can be found on the department web site at: http://www.phys.cwru.edu/undergrad/
