

Final Report for Physics 351/353 - Senior Project

(version May 7, 2003 -GSC)

*The following materials should be submitted to the chair of the Senior Project Committee (G. Chottiner)
The due date will be announced several weeks in advance but will generally fall near the final exam reading days.*

- One copy of this form, signed by student and advisor(s).
- Two copies of your final project report. Staple one copy together but leave the pages loose in the other copy so that it may be easily duplicated and bound for display on the bookshelf outside Rockefeller 202. (Students in PHYS 353 should submit one additional stapled copy to Prof. Singer.)
- One electronic copy of your final report, in your choice of file format. Electronic documents may be submitted as email attachments or on floppy disk or CD-ROM.
- One electronic copy of your final abstract using only simple text or HTML. These abstracts will be used to update the information we post on the web describing the senior project program.
